Select Resume Type

☒ **Chronological**

A chronological resume is developed around your work history. Jobs are listed in reverse chronological order with your most recent position listed first. Employers like this type of resume, because it is easy for them to see where you worked and when you worked there. Chronological resumes work best for job seekers with a solid, unbroken history of employment. Sample Chronological Resume ([link to Chronological Resume Sample.pdf](#))

☐ **Functional**

A functional resume is arranged around your skills and experience, rather than your chronological work history. Functional resumes highlight relevant skills instead of position titles. They are often used by job seekers who are changing careers or who have gaps in their employment history. Sample Functional Resume ([link to Functional Resume Sample.pdf](#))

☐ **Combination**

Combination resumes work well for job seekers with varied employment histories or for those who are changing careers. Sample Combination Resume ([link to Combination Resume Sample.pdf](#))
