# JOBS

## Saved Jobs

In My Workspace, save up to 30 job postings under the Saved Jobs tab. This tab is an easy way to keep track of the selected positions you want to apply for. Once you have applied, click the “Applied” tab to have the position moved to the Applied Jobs tab.

## Applied Jobs

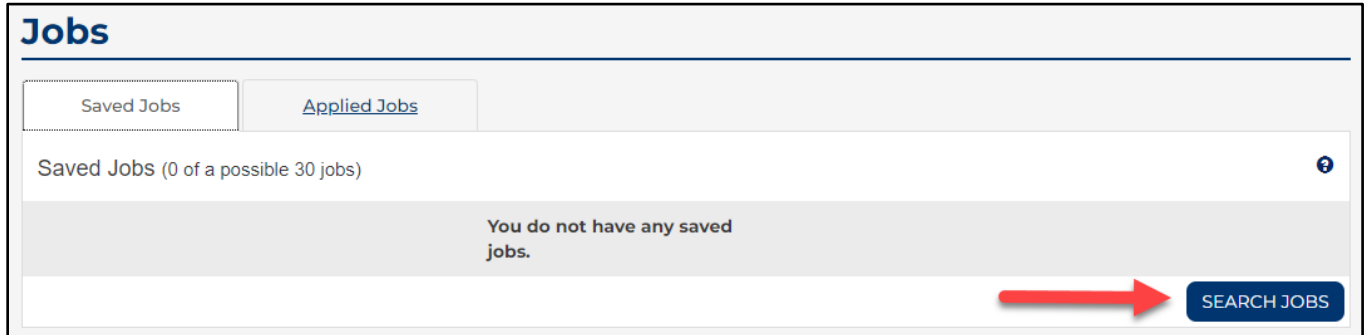

Jobs applied through PMTC will be listed under Applied Jobs. A job can be saved under Applied Jobs if you saved the posting under Job Tools. It will be saved under Saved Jobs and can be moved to the Applied Jobs tab when “Applied” is selected. You can maintain a record of job applications as well as print the history if needed. Clicking on the pencil icon will allow editing of the notes. The green “M” icon indicates you have applied for the job posting via PMTC.

## Search Jobs

To help narrow a job search, select the options of desired position. The more criteria you enter, the more limited your search results will be. Entering fewer criteria will usually return more jobs in your search results. When an employer posts a job, the same criteria selections are used.

The screenshot shows a user interface for job searching. At the top, there are two tabs: 'Saved Jobs' and 'Applied Jobs'. The 'Saved Jobs' tab is selected, showing 'Saved Jobs (0 of a possible 30 jobs)'. Below this, a message states 'You do not have any saved jobs.' A red arrow points to a blue 'SEARCH JOBS' button in the bottom right corner.

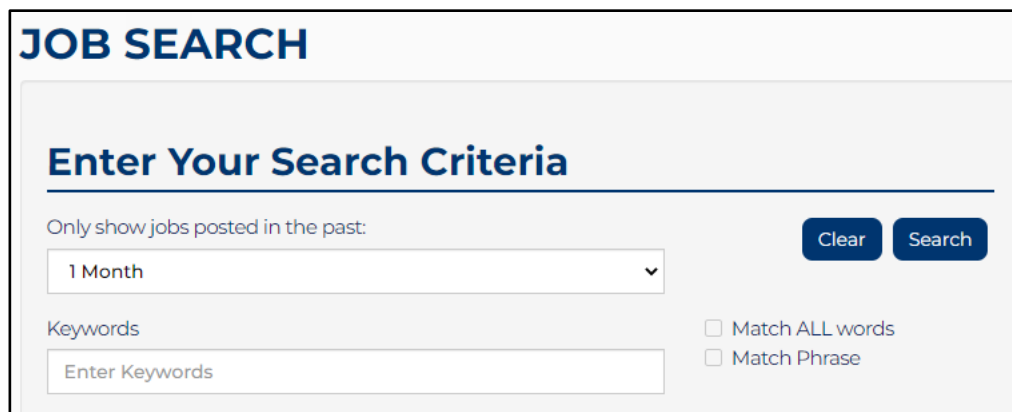

**Note:** Jobs postings can be eliminated from your job search if the select criteria was not completed by the employer. This may result in not seeing a job posting you would want to apply for. It is recommended to explore several search criteria to determine which results are best.

## Enter Your Search Criteria

Enter search criteria to narrow search results. Click “Submit” to view results.

Search by how long the job has been posted: 1 day, 1 week, 2 weeks or 1 month.

Searching on Keywords or Job Title, such as Project Manager, will search on both words. If you would like to search on the exact phrase, use quotes as in “Project Manager.” When you begin typing a job title, the system will generate a list of active job titles currently in the system.

The screenshot shows a 'JOB SEARCH' form titled 'Enter Your Search Criteria'. It includes a dropdown menu for 'Only show jobs posted in the past' set to '1 Month', a 'Clear' button, a 'Search' button, a 'Keywords' input field with the placeholder 'Enter Keywords', and checkboxes for 'Match ALL words' and 'Match Phrase'.

There is also an option to search by Job Code Number, which can be used to find a single job posting for which the Job Code Number is known.

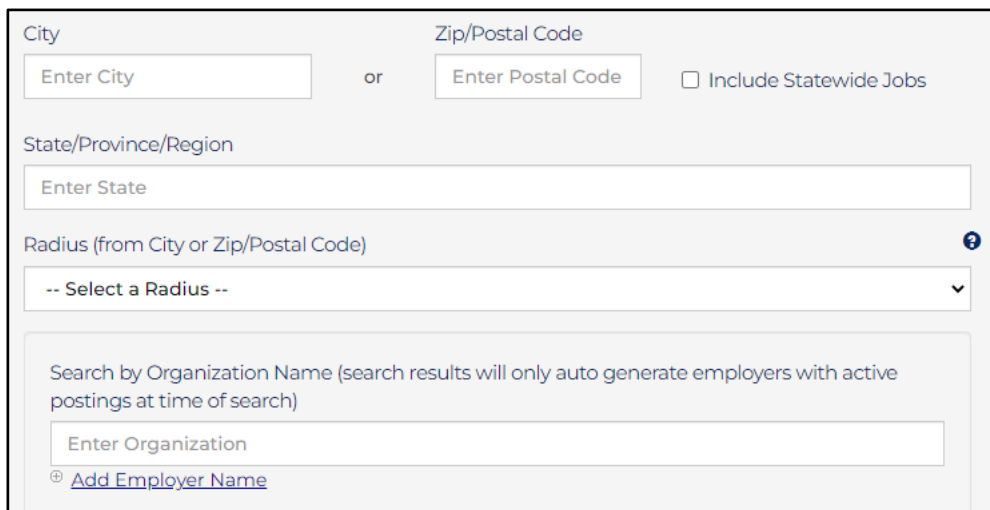

A search form with two input fields. The first field is labeled "Job Title" and contains the placeholder text "Enter Job Title". The second field is labeled "Job Code Number" and contains the placeholder text "Enter Job Code Number".

Search by location of job posting by:

- City
- Zip/Postal Code
- State or Statewide jobs

**Note:** Some employers post several positions across Michigan. Select this feature to broaden your search for job postings.

An advanced search form with several sections. The first section has two input fields: "City" (placeholder "Enter City") and "Zip/Postal Code" (placeholder "Enter Postal Code"), separated by the word "or". To the right of the "Zip/Postal Code" field is a checkbox labeled "Include Statewide Jobs". The second section is labeled "State/Province/Region" and has an input field with the placeholder "Enter State". The third section is labeled "Radius (from City or Zip/Postal Code)" and has a dropdown menu with the placeholder "-- Select a Radius --" and a question mark icon. The fourth section is labeled "Search by Organization Name (search results will only auto generate employers with active postings at time of search)" and has an input field with the placeholder "Enter Organization". Below this input field is a link with a plus icon and the text "Add Employer Name".

  - a. Chronological resumes will list information in date order.
  - b. Functional resumes will group information by function.
  - c. A Combination resume will give a combination of each of these types of resume formats.

Select Resume Type

**Chronological**

A chronological resume is developed around your work history. Jobs are listed in reverse chronological order with your most recent position listed first. Employers like this type of resume, because it is easy for them to see where you worked and when you worked there. Chronological resumes work best for job seekers with a solid, unbroken history of employment. Sample Chronological Resume ([link to Chronological Resume Sample.pdf](#))

**Functional**

A functional resume is arranged around your skills and experience, rather than your chronological work history. Functional resumes highlight relevant skills instead of position titles. They are often used by job seekers who are changing careers or who have gaps in their employment history. Sample Functional Resume ([link to Functional Resume Sample.pdf](#))

**Combination**

Combination resumes work well for job seekers with varied employment histories or for those who are changing careers. Sample Combination Resume ([link to Combination Resume Sample.pdf](#))
