

Pure Michigan Talent Connect - Career Explorer User Guide

The goal of the Pure Michigan Talent Connect (PMTc) Career Explorer tool is to provide job seekers with personalized career and education data that is tailored to their individual needs. Career Explorer leverages job advertisements from PMTC (MiTalent.org) and training and education data from Michigan Training Connect (MiTC, MiTalent.org/MiTC) and Pathfinder (Pathfinder.MiTalent.org). The result is one tool with multiple sources of workforce, training and education data.

PMTC Access

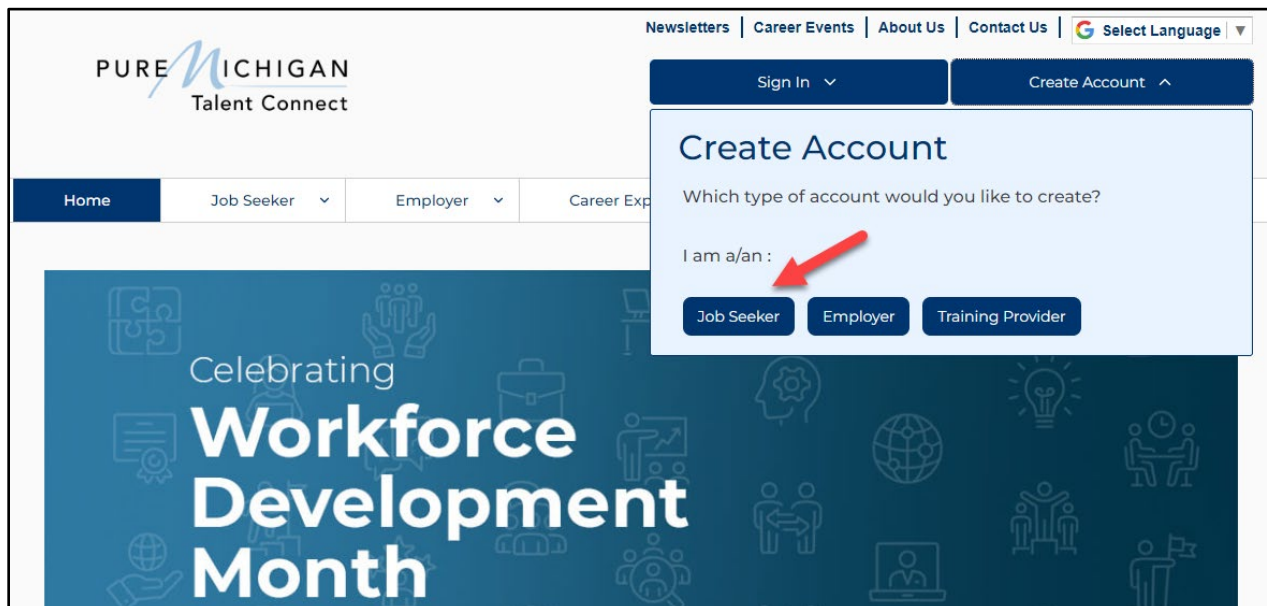

PMTC Career Explorer must be accessed by the job seeker by signing in or creating a free account with PMTC.

Sign In or Create an Account

To access PMTC Career Explorer, job seekers must first sign in or create a free account with PMTC. These buttons are found in the upper right-hand corner of the page.

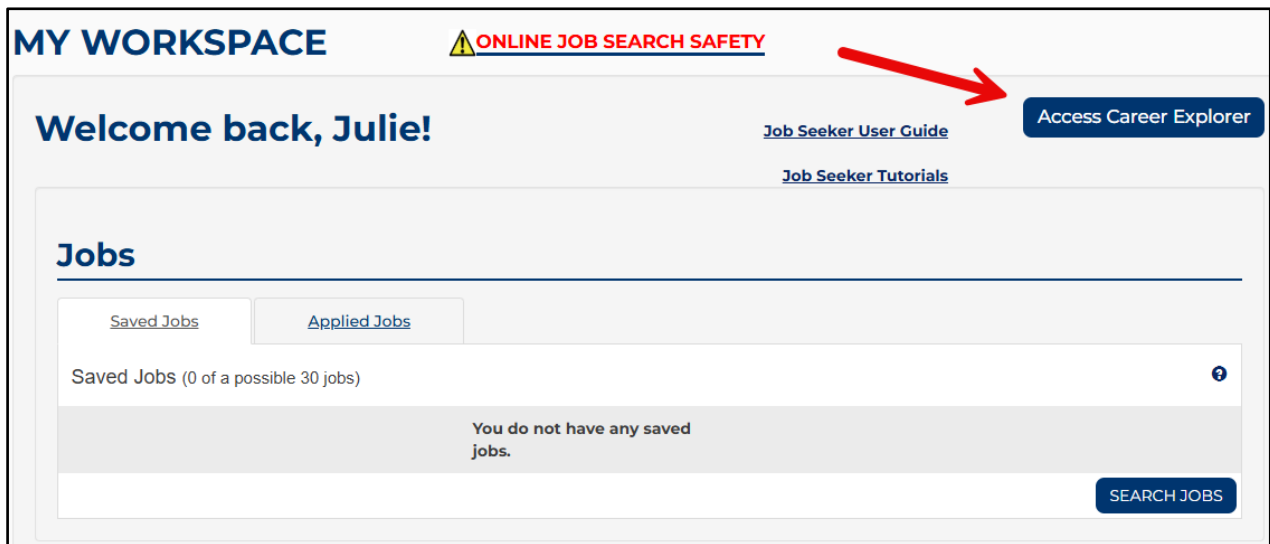

If a job seeker does not have a PMTC account, they must select “Create an Account” and choose “JOB SEEKER” from the window.

This will redirect the job seeker to MiLogin, where they will be able to enter their account information.

Accessing Career Explorer

After a job seeker has signed in, they can access Career Explorer through the job seeker's Workspace (MY WORKSPACE), shown below. Click on the "OPEN CAREER EXPLORER" button.

PMTC Career Explorer Functionalities

The following features describe Reemployment and Pathways information available to customers through PMTC's Career Explorer tool. These features focus on regional labor market information, training and educational opportunities.

Previous Experience

The below section shows information based on the job seeker's previous experience and the region where the jobseeker resides. These are populated directly from the participant's PMTC record, using the O*NET code field.

If the participant has no previous experience or O*NET code recorded in PMTC, a default occupation will be displayed. When a default occupation is displayed, a disclaimer will appear beneath the previous experience that reads: **No previous experience found – please use the search box above to find a relevant occupation.*

You can change the previous experience to a different occupation to see labor market information for that occupation. To find an occupation, begin typing in the occupation text box. Occupations matching the entry will be populated in a list for you to select from.

Previous Experience

- 19-3051.00
Urban and Regional Planners
- 29-1141.00
Registered Nurses
- 29-9021.00
Health Information Technologists and Medical Registrars

See more occupations in the previous experience list on the right.

Prosperity Region
Region 6

You can change the region of comparison by selecting a different region from the dropdown menu on the upper right ("Compare In").

Job postings relevant to the selected occupation are populated from PMTC and displayed underneath the Previous Experience section. Postings from the participant's region are populated first. If there are no job postings in a job seeker's region, postings from the nearest surrounding regions will populate.

To view all job postings for an occupation, click on the “View All Employment Opportunities” button. On this screen, you can filter employment opportunities by city or ZIP code. You can also sort the employment opportunities by Employer Name (default), City, Region or Post Date.

To see more information about the job posting, click on the job title to view the employment card. The employment card contains information such as the job description, PMTC job number, education level, experience level and how to apply.

Print Functionality

To print the Previous Experience and Job Postings section of the Reemployment screen, click on the print icon next to the “Previous Experience” title. A similar print option is also available for occupations searched on the Pathways tab, as well as the head-to-head occupational comparisons.

A formatted print option will appear. The page can be saved as a PDF or physically printed.

Pathways

You can click on the Pathways tab and you will be directed to the page shown below. The Pathways page allows the job seeker to explore careers, training and education options.

* Bolded occupations are those related to current or past employment.

You can click on any of the occupations that are listed in the “Find a New Path” section to find out more about a career.

Career Search

You can search for Careers by selecting the “Career” option beneath the search box, entering a keyword in the text box, and clicking on the “Search” button.

The screenshot shows the 'Career Search' section of a website. At the top, there are two tabs: 'Reemployment Info' and 'Pathways', with 'Pathways' being the active tab. Below the tabs, the heading 'Career Search' is followed by a subtext: 'Use the search tool below to search for careers and to find pathways for pursuing those careers.' A search input field contains the placeholder text 'Search Career Or Fields Of Study'. To the right of the input field is a green 'Search' button. Below the input field, there are two radio buttons: 'Career' (which is selected) and 'Education'.

Search Results

Search results are displayed that match the career entered in the text box.

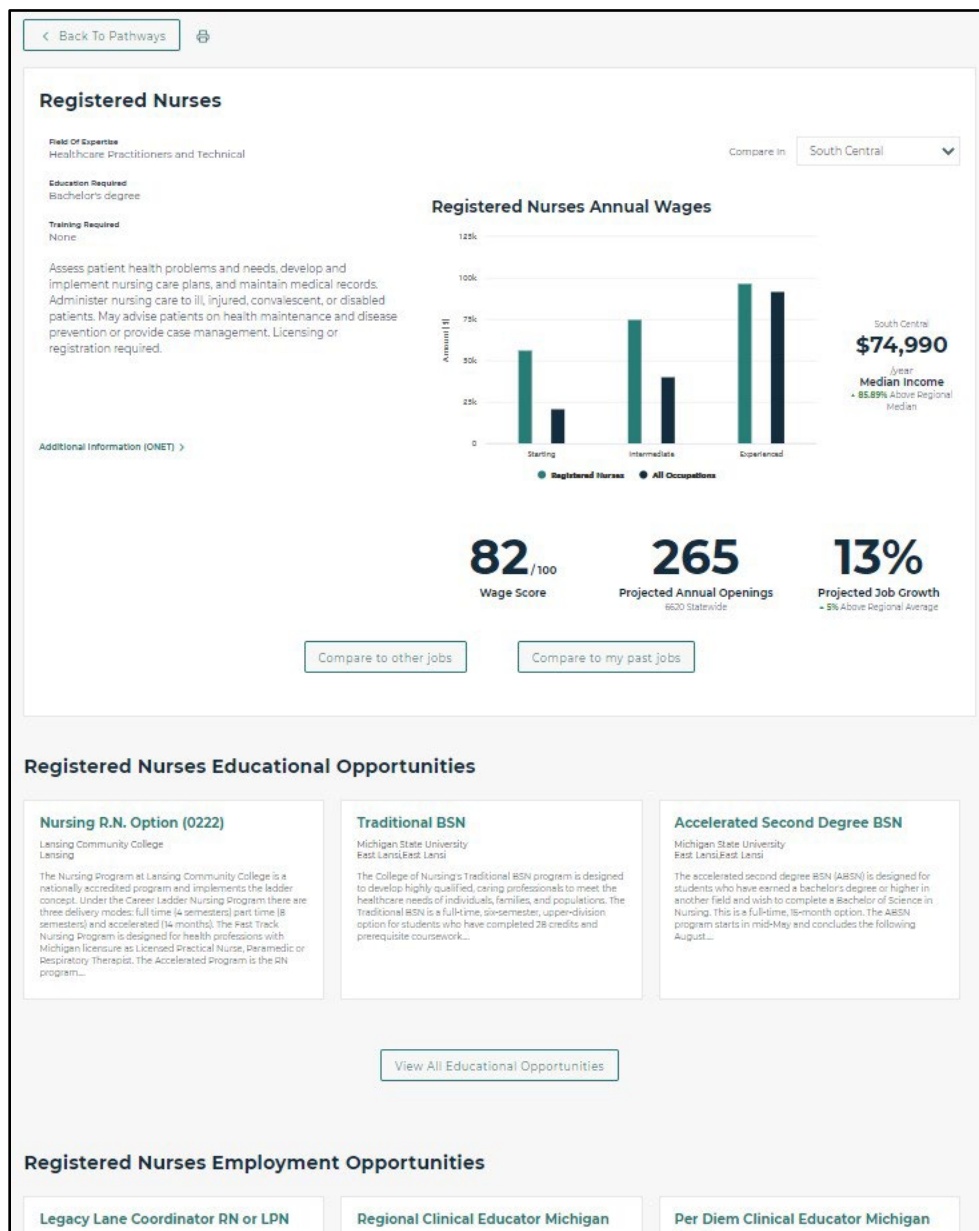

The screenshot shows the 'Search Results' section of the website. It features the same 'Career Search' header and search bar as the previous image, but with 'registered nurse' entered in the search field. Below the search bar, the text 'Showing Career results for "registered nurse"' is displayed, followed by '1-12 of 22'. A list of four career results is shown, each with a title and a salary range:

- Registered Nurses**
\$54,770 - \$96,370 / Year
- Nursing Instructors and Teachers, Postsecondary**
\$38,780 - \$125,310 / Year
- Nurse Anesthetists**
\$153,150 - \$0 / Year
- Nurse Practitioners**
\$84,560 - \$133,440 / Year

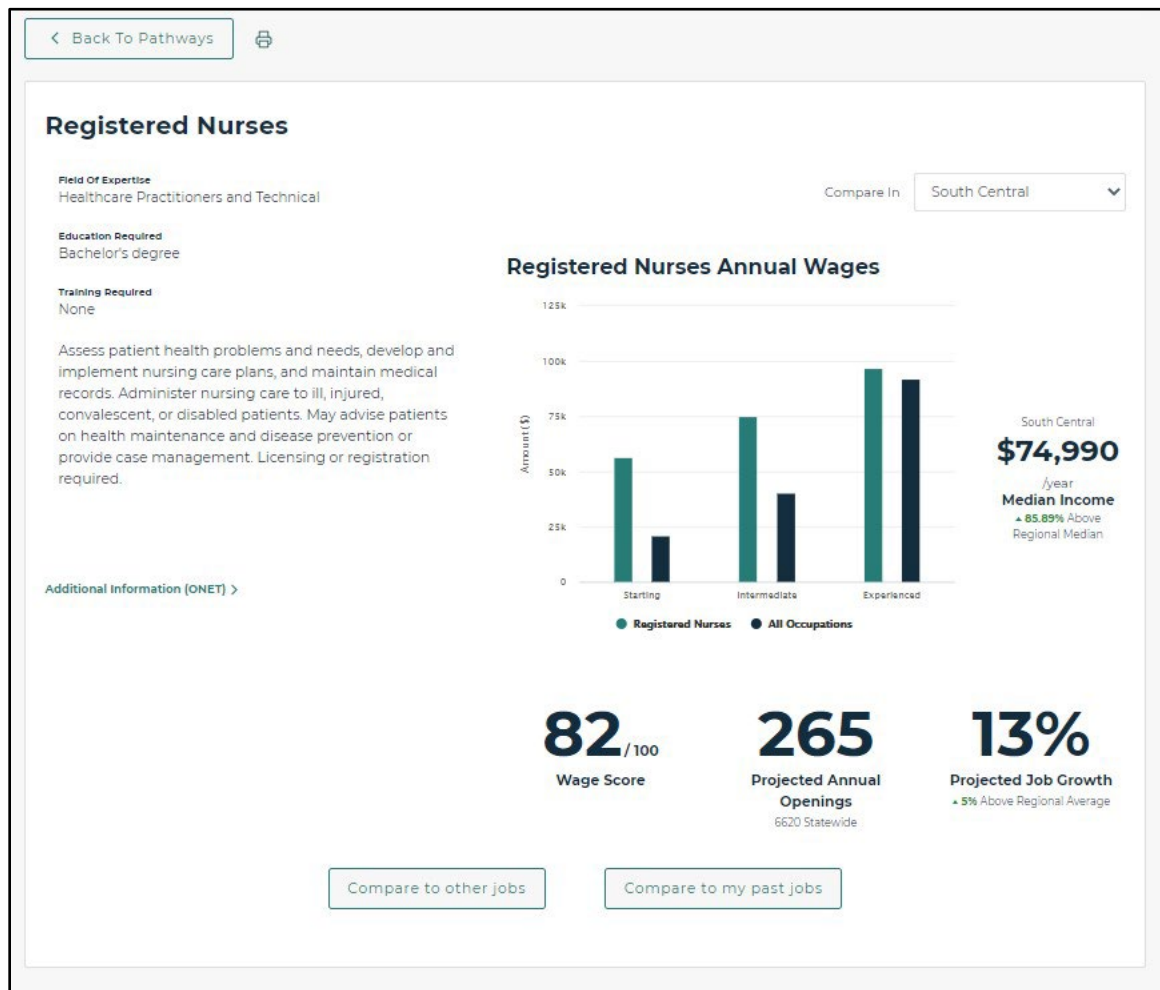

Occupation Information

You can click on any of the careers listed and a page will be displayed with labor market information about the occupation. Below the labor market information are educational opportunities and employment opportunities related to the selected occupation.

Pathways – Occupation Statistics

The below section of the occupation information page shows a graph of annual wages for the occupation in the region where the job seeker resides compared to All Occupations in that region. The Wage Score, Projected Annual Openings and Project Job Growth are also displayed for the occupation in that region. You can change the region in the “Compare in” dropdown if you would like to compare wages in other regions.

Pathways – Educational Opportunities

You can look at Educational Opportunities for the occupation. Click on the program title to display the details of the program. Educational Opportunities are sourced from MiTC and Pathfinder. You can learn more about the specific educational opportunity through MiTC or Pathfinder in the program details.

Education Search

You can search for education and training options by selecting the “Education” button, entering a keyword in the text box, and clicking on the “Search” button.

The screenshot shows the 'Career Search' section of a website. At the top, there are two tabs: 'Reemployment Info' and 'Pathways', with 'Pathways' being the active tab. Below the tabs, the heading 'Career Search' is followed by the instruction: 'Use the search tool below to search for careers and to find pathways for pursuing those careers.' A search bar contains the text 'nurse'. To the right of the search bar is a green 'Search' button. Below the search bar, there are two radio buttons: 'Career' (unselected) and 'Education' (selected).

Search Results

Search results are displayed for education and training options that match the career entered in the text box.

The screenshot shows the search results for the keyword 'nurse'. The interface is identical to the previous one, but now it displays results. Below the search bar, it says 'Showing educational results for "nurse"' and '1-12 of 38'. There is a 'Filter' dropdown menu. The results are displayed in a grid of six cards. Each card has the title 'Practical Nursing, Vocational Nursing and Nursing Assistants' and lists a different institution: Davenport University - Grand Rapids Bachelors Degree, Baker College - Flint Certificate, Davenport University - Grand Rapids Certificate, Northern Michigan University - Marquette Certificate, Lake Superior State University - Sault Sainte Marie Associates Degree, and Northern Michigan University - Marquette Associates Degree. Each card also includes a brief description of the field of study.

If you want to filter by city or ZIP code, click on “Filter” on the right-hand side to filter the education and training results.
